Art Unit: 2624

DETAILED ACTION

1. This action is responsive to communications of application received 11/13/2003.
2. The disposition of the claims is as follows: claims 1 - 21 are pending in the application. Claims 1 and 12 are independent claims.
3. The group and/or Art Unit location of your application has changed. To aid in the correlation of any papers for this application, all further correspondence should be directed to Group Art Unit 2624 (effective 05/07). Please be sure to use the most current art unit number on all correspondence to help us route your case and respond to you in a timely fashion.

Election/Restrictions

4. This application contains claims directed to the following patentably distinct species:

- A. Figure 1.
- B. Figure 3.
- C. Figure 4.

The species are independent or distinct because claim sets are distinctly drawn to at least figures 1, 3 and 4.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, not generic.

Art Unit: 2624

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.
